

Alco - San

Cleaners Chemical Corp.
cleanerschemicalcorp.com

GENERAL DESCRIPTION:

Alco – San Hand Sanitizer Alcohol Antiseptic 75% Topical Solution is a fast-drying, non-tacky hand sanitizer spray that gives you a sanitizing clean without water or soap!

Alco-San Hand Sanitizer Alcohol Antiseptic 75% works on contact. While other hand sanitizers only contain 60% or 70% alcohol, Cleaners Chemical's is 75% alcohol for maximum germ-fighting power. Glycerin is added as a moisturizer. Cleanliness is more important than ever, however, you may not always have access to running water or soap.

Hand Sanitizer Alcohol Antiseptic 75% Sanitizer is simple spray, rub it all over your hands covering all areas for at least 20 seconds, and you're done!

Our non-gel, alcohol-based hand sanitizer is formulated strictly following all guidelines established by the World Health Organization (WHO), the Food and Drug Administration (FDA) and the Centers for Disease Control and Prevention (CDC).

We have registration approval by the FDA to blend and bottling hand sanitizer to help fill the nationwide demand caused by the COVID 19 pandemic. We cannot add anything to the formula to make it a gel type of hand sanitizer, nor can we add any fragrance to the formula. The approved bulk hand sanitizer formula consists of alcohol (75% by volume), purified water, glycerin and hydrogen peroxide.

PHYSICAL PROPERTIES:
